## Presentations, Technical Applications, and User Networking

The Asprova User Day gives our customers and the larger Asprova community the opportunity to find out about the latest developments and connect to other Asprova users. In addition to lectures and application reports from advanced users, you will have the chance to share best-practice experience with Asprova users from colleagues from various industries.

Don't miss this special event to gain new insights into Asprova and tips on how to improve your Asprova skills.
